## 27 Perish In Boston Fire

Boston, Dec. 4.—Twenty seven persons were roasted to death in this city yesterday morning early when fire broke out in the Arcada a cheap lodging house in the lower part of the city. The Arcada was a large frame building and the fire gained such headway that before the fire department arrived the flames were beyond control. The Arcada was a regular fire trap and on the point of being condemned.

## Roosevelt At Buenos Aires

Buenos Aires, Dec. 4.—Ex-President Roosevelt arrived in this city yesterday. He and party traveled over the Andes mountains from Chili by automobile.

## What About It?

There is a rumor afloat that one of the young businessmen of the city and wife came near getting left at Ketchikan when they were returning on the Alki from a trip to Seattle. Of course as we do not know the facts we won't mention any names but the City Store might of been short a clerk for a few days longer.

## Oxford Tie And Rainy day Socks

are what some up to date young fellows call those fancy ones we are showing. And it is a fact that they are too pretty to be hid by high cut shoes. They are not a bit classier, however, than our neckwear, shirts and other furnishings. Just a peep at them will tell you they are the real thing in men's toggery. Take the peep today.

Our stock of Winter Clothing is very complete this year. See our

## Steamer Alki Sails North

Seattle, Dec. 4.—The steamer Alki of the Northland S. S. Company will sail from this port for the north at 9 o'clock tonight.

## Toledo Man For Belgium

Washington, Dec. 4.—Brand Whitlock of Toledo, Ohio, has been nominated as minister to Belgium according to word given out at the White House yestereay.

President Wilson is suffering from a severe cold but the family physician reports nothing more serious.

## Rebels Cut Oil Supply

Mexico City, Dec. 4.—The Rebels have cut the oil supply of the National Railway and in all probability the city will shortly be cut off entirely from communication with the outside world.

Plymouth, Dec. 4.—Mrs. Pankhurst, the suffragette, will be arrested immediately upon her arrival here.

## Latest News Of Mexican Situation

### Huerta Regime About Finished.

Mexico City, Dec. 4.—British Commander Craddock of the Royal Navy was in conference yesterday with President Huerta. The belief is fast growing in this city that the elimination of Huerta is near. There is little comment on President Wilson's message regarding the Mexican situation.

Juarez, Dec. 4.—Seven Federal Generals in north Mexico notified General Villa of the rebel forces that they are ready to surrender and demand police protection when the rebels enter Chihuahua. The federal forces are losing ground fast and the men are deserting all along and joining the rebel cause.

Mexico City, Dec. 4.—Porfirio Diaz has been placed on active list of the Federal Army.

Paris, France, Dec. 3.—Mexican Minister Francisco De la Barra leaves suddenly for Japan, presumably to thank the Mikado for Japan's participation in Mexico's Centennial celebration three years ago. De la Barra would not discuss Mexican Politics to-day. He did, however, vouchsafe a denial of the story that he was commissioned to offer practically anything Mexico has to give away in return for Japanese aid against the United States. Felix Diaz started on a similar mission last summer. It is thought that in view of the present Mexican-American relations that De la Barra's visit will be unwelcome. It is not known when Felix Diaz will return.

## Serious Charges Against Pinchott

Washington, Dec. 4.—Victory for the advocates of strict federal control of water power grants was practically assured recently in the National Conservation congress when the resolution committee determined that congress had taken the water power question out of its hands. The minority was headed by Gifford Pinchot and now Senator Works charges Pinchott with being a lobbyist working in the interests of San Francisco's water supply.

## Dr. Emery Returns From West Coast

Dr. Emery the popular Wrangell Dentist returned on the Uncle Dan last Wednesday from the West Coast where he has been for some time past. Dr. Emery is now in his new office in the Uhler Blg. and is ready for all kinds of dental work.

## New Mixer At Hotel Bar

Guy Carson is the new man behind the bar of nights at the Wrangell Hotel. Guy is well known here and is right there when it comes to mixing drinks, for he can mix anything from a lemonade to a gasoline cocktail.

## Social Dance At The Hotel

### Player Piano

J. G. Grant held open house for a social dance given by Prof. C. N. Pring last Tuesday evening. The affair was a high success and every one present reported a fine time.

## Wm. Stafford Held For Embezzlement

Wm. A. Stafford was taken into custody by Marshal Schnabel last week charged by a telegraphic warrant with "Embezzlement by Bally" sworn out by Fremont King of Ketchikan.

Marshal Schnabel took the prisoner to Ketchikan on the Alameda where he was released on bail.

The trouble was caused over the "Abe Lincoln" a gas boat which he has run the past season.

## School Entertainment Was Great Success

The School entertainment given by the school children at Red Men's Hall last Friday evening was a great success every way. The program was fine and carried out without a hitch and the pupils did themselves and their teachers great credit. The entertainment was a success financially as the school cleared about \$50. which will be used as a library fund.

## Home Bakery Has New Oven

Jack Walsh manager of the Home Bakery installed a fine large baking oven last week. The oven is the latest thing out in that line and is a great improvement to the bakery as it is now possible to bake a hundred loaves at a baking and it does better than the old one.

## For Bender

The Wrangell Photoplay Show are expecting a player piano within the next three weeks, according to the manager Jack Bender.

## Price of Halibut Continues To Rise

Seattle, Dec. 4.—Halibut is quoted at seven and one-half cents per pound on the market here today.

## Waco Swept By Flood

Waco, Texas, Dec. 4.—The Brazos River has risen rapidly during the past few days, there is ten feet of water in the heart of the City, if the water does not subside in the next twenty-four hours there will be much suffering and loss of property.

## Teamsters Rioting At Indianapolis

Indianapolis, Dec. 4.—Rioting continues unabated throughout this city in the teamsters strike.

Washington, Dec. 4.—The Department of Labor yesterday dispatched a mediation to Indianapolis to see what could be done towards settling the teamsters strike in that city.

## Extracts From Presidents Message

Washington, Dec. 3.—President Wilson read his annual message to congress in which he asks the American people to wait until the usurper Huerta completes his own ruin, which, the president says is inevitable. The President also demands the government to build Alaska railroads which he maintains is the key which will open up the resources of the Territory. In his message he also makes the point clear that conservation is not in a strict sense the proper word. President Anna Shaw of the National Suffrage movement, assails President Wilson for not mentioning the suffrage cause in his message.

## Ex-Prseident Is Released

New York, Dec. 4.—Ex-President Zelaya of Nicaragua who was arrested on charges of murdering two Americans, Leonard Grace and Leory Cannon, during one of the political disturbances during Zelaya's regime in his native country, was released from custody and will leave immediately for Spain.

MONARCH  
STAY SATISFACTORY RANGE

Make Your Cooking a Daily Pleasure

The superior construction of the MONARCH is such that waste of heat is impossible. Every particle of fuel is consumed and the heat held captive until it does its full duty. The same splendid economical service which the MONARCH gives when new is retained through years and years of hard continuous use. That's why it's called the "Stay Satisfactory Range." The fuel economy of the MONARCH is economies in time and labor. Drudgery is replaced by pleasure, the housewives duties are rendered lighter—her results are better. A MONARCH will pay for itself over and over again in the saving of fuel and, as interest on the investment, will provide real cooking comfort for many, many years.

We recommend the MONARCH as we have every confidence that it will make good all our claims as it has always done.

## Something New

### AVIATION TAKES NERVE.

And When That Is Lost the Aeronaut  
Should Fly No More.

He who flies constantly must look to one personal risk, which may vary according to the characteristics of the individual. This is the danger a man may incur by becoming a little careless while in the air. There is the possibility, in fact, that familiarity may breed not actual contempt, but a temporary relaxation of vigilance, and piloting an aeroplane needs such watchfulness, such minute precision, that any "staleness" on the part of the man at the wheel or lever represents a peril that is very real.

The pilot who flies a great deal should remind himself constantly that there is no room for error in the handling of aircraft.

A loss of confidence not difficult to understand is suffered by an air man sometimes after he has been the victim of a serious fall, and in similar circumstances a jockey, or, say, a racing motorist, may be robbed of nerve. When a pilot does lose judgment as the outcome of a bad mishap his wisest course is to cease to fly. With a broken nerve he is a menace to himself and to others as well.—Claude Grahame White in National Review.

### Playin' the Races.

"Our Hirain's writin' again from college," said Farmer Richley, "fur more money fur books."

"Alr ye sure he really wants that money fur books, Sis?" asked his wife.

"Yans; he sez he'll take his oath every cent I send him goes to the bookmakers."—Catholic Standard and Times.

### Sensible Advice.

A writer who had made a good bit of money at a single shake of the bag went to Charles Reade for advice as to investments. "Well," said Reade, "I should say put it in the best gilt edged securities. Divide it among the first class bonds of the first class nations. It's better to sleep on 3½ cent than to lie awake on 6."

### LABOR.

Labor, if we would but perceive it, is one of the greatest earthly blessings. It rewards with health, contentment of mind, cheerfulness of spirit an sound, refreshing sleep, few of which blessings of life are long enjoyed by those who do not daily, in one form or another, labor.

## JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as the book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymological, pronunciation, have received a sparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

Mrs. Ensley is visiting in the  
states.

There is a good show at the  
Rink tonight.

Wrangell has been visited with  
several bad blows during the past  
week.

Prof. C. N. Pring has spent the  
past week in town tuning up a  
number of Wrangell pianos.

M. & R. Hofstad have a new  
general merchandise sign over  
their place of business this week.

The Humboldt is making slow  
progress on her present trip south  
owing to a broken wheel.

See "The Grotto of Torture" at  
the Rink tonight. This is a picture  
above the average so don't  
miss it.

Men working in the woods report  
that the high winds of late has  
caused more fallen timber than  
any time in the last twenty years.

Wm. Wright, inspector of light-  
houses, was a passenger south on  
the last Humboldt.

Editor Troy of the Juneau Em-  
pire was a through on the Spokane  
bound for Juneau. Mr. Troy has  
a good word for Southeastern  
Alaska and his home town in par-  
ticular.

Wm. Lewis has put in a new  
walk to the Rink which makes it  
much wider and more convenient  
to get in and out besides making a  
better appearance.

The Red Men will have a big  
Masquerade Ball on New Year's  
Eve at the Red Men's Hall. There  
will be a list of dandy prizes, which  
will appear in a later issue of this  
paper.

**Plan To Advertise  
Salmon In Germany**

Mr. F. Klevenhusen head of the firm of Klevenhusen & Co., was in Seattle recently on his way from Wrangell, Alaska, where he had spent most of the summer looking after the firm's interests in the North.

Asked as to the present outlook for mild cured salmon, Mr. Klevenhusen stated that on the whole the outlook was not flattering. The production of mild cured salmon has always kept well ahead of the demand, and an increased demand and consumption he thought will be the only solution to a betterment of conditions.

**Notes From  
Coming Fair**

The Irish section of the Panama-Pacific International Exposition has been allotted, fifteen thousand square feet and it is intended to have a representative exhibition of Irish linens, wools, laces, silks, poplins, tapestries, and textiles generally. The section will have the fancy title "Shamrock Isle," and the wonderful products of the Irish handcrafts will be elaborately displayed. A serious and earnest attempt to show what Ireland produces and makes for sale will be made. Specimens of the wonderful old bog-oak furniture will be shown.

An imitation of the famous Travertine marble, from which the palaces of the Roman emperors were built, is being used to make the statuary and the covering of the exhibit palaces at the Panama-Pacific International Exposition. The composition is a gypsum, rain proof and of unfading color; in tint it is a faint ivory yellow and is as smooth and hard as marble. The exposition sculptors and their assistants have formed a social club called the "Travertine Club" since they are the first sculptors to use the material for this purpose.

It is probable that the exposition guards from February 20 to December 4, 1915, and for some days before and after those dates, the opening and closing days of the Panama Pacific International Exposition, will consist of detachments of troops of the United States army. The strength of the force has not yet been determined, but it is thought that it will include a regiment of infantry and a troop of cavalry. At any rate, the guards will be a strictly military body. The United States Public Health Service will care for the Emergency Hospital Service of the exposition.

**Clerks Must Lick  
Parcel Post Stamps**

Washington, Nov. 21.—Persons mailing Christmas gifts this year will not be required to lick their own postage stamps. Postal clerks will do it for 'em, if requested. Instructions to this effect have been issued by Postmaster General Burleson, who said:

"When a parcel is presented for mailing, the clerk receiving it will collect the required postage, which later will be affixed by an employee of the postoffice."

The order applies to mail matter of the second, third and fourth classes. Those sending letters and post cards must do their own "licking" as heretofore.
